MOTIF

BattisShirala Nag Panchami Utsav

"Nag Panchami , the snake festival is held towards the end of August or early September. It is celebrated on a grand scale in the village "BattisShirala" in ShiralaTahsil. The devotees collect hundreds of Cobras and place them in earthen pots and worship them to the accompaniment of folk dances and songs. Later they are carried in procession of bullock carts and chariots. People from the district and neighbouring districts (Mumbai, Pune, Kolhapur, Satara, Sangli etc.) come here to participate in the fair on that day. On Nag Panchami day many people tie the live snakes around their neck and play with them and also on decorated vehicles while snake processions are taken out. During this procession many entertainment items are presented. After this festival, all snakes are released to move to the forest freely from where they were captured.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non-Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st phase of the Census i.e. House Listing and Housing Census. The non-Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added

amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centres (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i) Status and Growth History of Towns,(ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Shri Ranjit Singh Deol, Director of Census Operations, Maharashtra. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl. RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

PREFACE

The emphasis on decentralised planning is progressively gaining momentum in India in view of the enactment of Panchayat Raj Institutions at grass-root level. This Handbook provides necessary information required for planning and decision making at the micro level in the context of decentralized planning at District and block level.

In fact, Census has voluminous database systematically organised, updated and structured so that it is of some value and generates valuable information for development. For the best utilisation of such extensive data, the Census Organisation is publishing such primary census data, integrated with other non-census data from secondary sources with village level information and maps as a handbook for each District. The Registrar General and Census Commissioner in his foreword has already provided sufficient details of history and scope of the publication of District Census Handbook.

The design for the 2011 District Census Handbook was evolved centrally by the Census Commissioner, India. In accomplishing this task we have received whole-hearted co-operation of the staff at various levels of different departments of the Government of Maharashtra. Much of the data so provided by this field level officers have been cross checked with the data obtained from various departments and an attempt has been made to reconcile the discrepancies as well through the software provided by the Registrar General and Census Commissioner, India.

I am deeply grateful to Dr.C.Chandramouli, Registrar General & Census Commissioner, India and Shri Deepak Rastogi, Additional Registrar General for their guidance in bringing out this publication. I also express my thanks to Shri A.P.Singh, Deputy Registrar General (Map), Shri A.K.Singh, Deputy Registrar General (Census Division), Dr.Pratibha Kumari, Assistant Registrar General (SS Division), Shri M.S.Thapa, Addl. Director (EDP) and their colleagues for providing technical guidance in finalising this volume.

In this Directorate the DCHB section was spearheaded by Shri Y.S.Patil, Deputy Director under the guidance of Dr. S.S.Hiremath, Joint Director. He was ably assisted by Shri D. B.Gode, Assistant Director, Shri W.A.D'Souza, Statistical Investigator Gr.I and Smt. Winifred A. D'Souza, Statistical Investigator Gr. I.

The physical features have been concurred by the Map section, after incorporating necessary updates, wherever required. The maps inserted are prepared by the Cartography Section under the guidance of Shri D.N. Chaurasia, R.O(Map). I am thankful to the Census Section headed by Smt. B.H. Thakare, Assistant Director, PCA/DDU unit headed by Shri Santosh Payas, Assistant Director and DDE section headed by Shri Vijay Ahire, Deputy Director.

Lastly, I take this opportunity to offer my thanks to all officials in various grades who have been actively involved in voluminous work of compilation and preparation of this volume. The list of the officials of this Directorate closely associated with this work is given in the "Acknowledgements".

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to District level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each District. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the District. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the District, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, District census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to Tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Brief History of the District

The District derives its name from its headquarters Town Sangli, which was erstwhile princely State, and now forms a part of the District. The District forms a part of Deccan Plateau. Its history is essentially linked with the southern Maratha territories also referred to as the Kuntala during the ancient period. After the death of the Emperor Ashoka in 236 B.C., this region witnessed the rise and fall of the dynasties of Satavahanas, Vakatakas, Rashtrakutas, Chalukyas and the Bahamani kings. After the invasion of Yadavas of Devagiri by Ala-ud-din Khilji, the Deccan passed under the over lordship of Delhi emperors. The first Moghal invasion in Deccan began in 1593 during the reign of Akbar. The successive history of the region is marked by prolonged struggle for domination among the forces of the Moghal, Adilshahi's kingdom and the Marathas. Maratha chieftains belonging to the Patwardhan family are said to have been the rulers of small principalities such as Sangli, Miraj and Tasgaon which came under the domination of British in 1818-19 and finally these were merged with the State of Bombay during the post-independence period in 1948.

Sangli District was formed in 1949 by transfer of Tasgaon, Khanapur (Vita), Walwa and Shirala Tahsils from old Satara District. Two more talukas of Miraj and Jat were formed out of the parts of erstwhile Indian States and merged in the new District. After this merger it was named as South Satara District. However, in 1960 the District was renamed as Sangli. In 1965, two talukas, viz. Miraj and Khanapur were split and two new talukas viz. Kavathe-Mahankal and Atpadi were added to the original set-up of 6 Tahsils. The District has thus 8 Tahsils, viz.; Miraj, Khanapur, Jat, Tasgaon, Shirala, Walwa, Atpadi and Kavathe-Mahankal.

At the time of 1961 census, the District was comprised of 5 talukas and 1 Mahal which in themselves included 526 inhabited villages and 6 Towns. At the time of 1971 census, the District had 8 Tahsils comprised of 539 inhabited villages and 7 Towns. Since the number of Tahsils in the District has remained unchanged in 1981 and 1991, one new Town was added in 1981. The number of Tahsils and Towns are same as it was seen in the year 1981 i.e. 8 Tahsils and 8 Towns. Only the number of inhabited villages increased from 708 in 1981 to 723 in 1991. In 2011 census, the District has 10 Tahsils, 7 Towns and 728 villages (including 3 uninhabited villages).

ANALYTICAL NOTE

Physical features

Location and Size

Sangli District is one of the south-western Districts of Maharashtra, which lies between 16° 45' and 17° 33' north latitude and 73° 42' and 75° 40' east longitude. It is surrounded by Satara and Solapur Districts to the north, Karnataka State to the east and south, Kolhapur District to the south-west and it also has a small boundary with Ratnagiri District in the west.

The District has an area of 8,572.00 sq.kms., and a population of 28,22,143 persons as per 2011Census. While the area of the District accounts for 2.79 percent of the total area of the State, the District population constitutes 2.51 percent of the total population of the State. The density of population is 329 persons per sq.km. Among the 35 Districts of the State, the District ranks 17^{th}in terms of area, 15^{th}in terms of population and 12^{th}in terms of density.

The headquarters of the District is at Sangli, a city with a population of 5,02,793. The District is well connected by road as well as by rail from the other parts of State as well as the country.

Physiography

India has been divided into four macro level physical divisions. These are The Northern Mountains, The Great Plains, The Deccan Plateau and the Coastal Plains and Islands.

Maharashtra falls under two of these macro level divisions 1) The Deccan Plateau and 2) The Coastal Plains and Islands. The north-south running Sahyadri range separates these two divisions. The Deccan Plateau lies to the east while the Coastal Plains and Islands lie to the west up to the Arabian Sea. The Deccan Plateau is much larger of the two divisions and includes twenty nine Districts of the State while only six Districts lie in the Coastal Plains and Islands.

The whole Deccan Plateau is sub-divided into 12 meso regions. Of these, only 2 meso regions i.e. Northern Maharashtra and The Maharashtra Plateau lie within the State. Northern Maharashtra is further divided into 2 micro regions i.e. The Tapi-Purna Valley and The Wardha-Penganga-Wainganga Plain. The Maharashtra Plateau is also further sub-divided into 2 micro regions i.e. The Eastern Plateau and The Western Plateau with Protruded Hills.

The Coastal Plains and Islands are divided into 4 meso regions i.e. Gujarat Region, Western Coastal Region, Eastern Coastal Region and The Islands. Of these, The Western Coastal Region covers Maharashtra. This region is divided into 4 micro level regions i.e. Maharashtra Littoral, Goa Coast, Karnataka Coast and North Kerala Coast. Only Maharashtra Littoral falls within the State of Maharashtra.

The hierarchy of these macro, meso and micro level physiographical divisions within Maharashtra State are as below:

(A) Deccan Plateau:

(i) Northern Maharashtra:

(a) Tapi-PurnaValley: Includes the Districts of Nandurbar, Dhule, Jalgaon, Buldana, Akola, Washim and Amravati.

(b) Wardha-Penganga-Wainganga Plain: Includes the Districts of Wardha, Nagpur, Yavatmal, Bhandara, Gondiya, Gadchiroli and Chandrapur.

(ii) Maharashtra Plateau:

(a) Eastern Maharashtra: Includes the Districts of Aurangabad, Jalna, Parbhani, Hingoli, Nanded, Bid, Osmanabad, Latur, Solapur, **Sangli** and Kolhapur.

(b) Western Maharashtra with Protruded Hills: - Includes the Districts of Nashik, Ahmadnagar, Pune and Satara.

(B) Coastal Plains and Islands:

(i) Western Coastal Plains:

(a) Maharashtra Littoral: Includes the Districts of Thane, Mumbai (Suburban), Mumbai, Raigarh, Ratnagiri and Sindhudurg.

Sangli District is a part of eastern plateau, the micro level physical division of Deccan plateau. In fact, the District as a whole is an elevated land through which river Krishna and its tributaries flow in a general south-eastern direction, making a relatively flat basin. The physiography of the District may be grouped into 3 parts i.e. (i) The Sahyadri hills, (ii) The Plateaux of Khanapur and Jat and (iii) The Krishna-Yerla basin.

(i) Sahyadri Hills includes only a part of Shirala Tahsil. This region has an altitude ranging between 700 and 1,100 metres. The region slopes towards south and south-east. Varna river originating in Sahyadri itself along with its tributaries drains this region. These hills are partially covered under forests and these are mainly reserve forests. The surface is uneven and badly dissected by numerous streams and strata are rocky in nature.

(ii) Khanapur plateau spreads over parts of Tasgaon, Khanapur, Atpadi and Kavathemahankal Tahsils. The plateau has an altitude ranging between 650 and 800 metres and it slopes towards south and east. It is a dissected plateau and thus has quite an uneven surface. A fairly large part of this plateau is stony wastelands. However in the vicinity of streams/rivers shallow soils are found in patches where mainly kharif crops are grown. The plateau is almost devoid of any vegetation except for Bhapalgarh hill top.

Occupying the extreme eastern part of the District, Jat plateau covers the entire Jat Tahsil and a small part of Kavathemahankal Tahsil. The plateau has an altitude ranging between 500 metres and 700 metres. However, near Jat the maximum height is 748 metres. It is a globular shaped plateau, which has been dissected by numerous small streams originating from its centre. Two third surface of plateau is stony and gravelly and is poorly suitable for agriculture. Shallow soils are found in patches at the eastern fringe of plateau in which kharif crops are grown.

(iii) Located in the heart of the District, Krishna-Yerla basin covers the entire Tahsils of Miraj, Walwa and Palus and major parts of Tasgaon and Khanapur, a small part of Shirala and Kavathemahankal Tahsils. The altitude in this basin varies between 500 and 600 metres from mean sea level and the basin gradually slopes towards south-east. The basin is relatively smooth in surface and has a thick layer of fertile soil in the vicinity of Krishna and Yerla rivers. The soils are heavy deep black, capable of yielding bumper kharif crops in Walwa, Palus, Tasgaon and Miraj Tahsils. These soils are highly retentive of moisture also grow jowar, wheat and gram. The irrigated crops like chillies, cotton, sugarcane and turmeric are also grown in this soil. This basin is a well-developed urbanized and industrialised part of the District.

Drainage

The Krishna forms the main river system of the District though Shirala Tahsil in the west may be described as belonging to the Varna and eastern part of the District as belonging to the man. The Krishna is one of the three great rivers of southern India. Like the Godavari and Cauvery it rises to the

east of Sahyadris almost within sight of the Arabian seas and after traversing the entire breadth of the Peninsula falls into the Bay of Bengal. Within the District it flows for a distance of about 108 kms and is joined by the Varna and the Yerla, while the Agrani river, with a greater part of its course within the District, joins it just outside the District boundary. The Man river has only about 16 kms of its course within the District, but along with its tributaries is responsible for draining the north-eastern parts of Khanapur and Miraj Tahsils and the northern part of Jat Tahsil into the Bhima river.

Climate

The climate of the District is characterised by general dryness throughout the year except during the south-west monsoon season. In general, the climate becomes hotter as one proceeds from west to east. The year may be divided into four seasons. The cold season is from December to about middle of February. The hot season, which follows, lasts till the end of May, which is the hottest month. June to September is the south-west monsoon season and October and November constitute the post monsoon season.

The average annual rainfall in the District is 692.4 mm. In general, the rainfall decreases from west to east. The western part of the District gets over 2,000 mm. of rain, while in the eastern part the rainfall is only about 500 mm. The rainfall at individual stations shows considerable variation from year to year. Most of the annual rainfall is received during the south-west monsoon season although a considerable amount (about 20 per cent) is received in the post monsoon or retreating monsoon season. Some rainfall in the form of thunder showers occurs in May. In the western parts, the climate is cool and healthy in the hot season but gets chilly during the rainy season. In parts of Walwa and Miraj Tahsils the climate is pleasant. The temperature increase as one proceeds from west to east and in the eastern parts of the District the climate is much hotter than in the rest of the District. The eastern parts of the District also have a wider range of temperature variation from season to season. The mean maximum temperature ranges from about 32° C to 34° C but in May on an individual day temperature may reach above 40° C. The mean minimum temperature in the District fluctuates between 10°C to 12° C.

In the post-monsoon cold and summer seasons, the air is dry, particularly in the afternoons, while during the south-west monsoon season the air is humid. Skies are generally clear or lightly clouded except during the south-west monsoon season when they are heavily clouded to overcast. Winds are light to moderate but during the south-west monsoon season they become stronger. In the south-west monsoon season, winds are from directions between south west and North West, the westerly beings more frequent. In the post-monsoon season they are predominantly from the north-east or east easterlies and south-easterlies are common in the cold season. By February westerlies and north-westerlies appear and these predominate in the summer.

Natural Economic Resources

Forestry

This includes all land classified as forest under any legal enactment dealing with forest or administered as forest, whether state owned or private and whether wooded or simply maintained as forest land. Within the forest area itself, there may be occasionally cultivated patches or grazing lands, but such area are shown under column 104 of the Village Directory as forest. The process of regularization of land grants and effecting relevant changes in the basic records of survey and settlement are somewhat protracted and time consuming. Therefore the information based on records is in some cases at least, likely to be different when compared with the actual field situation.

Minerals and mining

The Deccan traps generally lack minerals of economic importance but being hard, dense and durable are most suitable as building materials. They are also needed as road metal and railway ballast. Some limestone deposits occur around Miraj but the quality is not uniform. The reserves are indicated at a few million tons and do not seem to be useful for cement industry. Good clay for bricks and tiles is found on the banks of rivers. No other mineral of importance is known to occur in any other part of the District.

Soil and Cropping pattern

The soils of the District are essentially derived from the underlying basalt and under different climatic conditions show variations in texture and structure. They vary from deep black soils in the river valleys to shallow murum red or grey in the hilly areas.

Laterite soils occur on up-ghats in the extreme western part of the District, which receive very heavy rainfall. Under heavy rainfall conditions leaching has taken place. These soils are poor in fertility and are mainly suitable for rice and hill millets.

Reddish brown soils are found on hill slopes and in undulating areas in heavy rainfall regions of the District. These are residual soils and are usually structure less and sandy loamy in texture. Due to adverse topographical conditions these soils have limited depth and are poor in fertility.

Deep black soils of the Krishna valley occur particularly in areas having assured rainfall. They have good physical condition, clayey texture and granular to crumb structure. These are fertility soils, highly retentive of moisture and yield bumper crops.

Medium-deep soils occur in the areas of the District where the rainfall is low. They are reddish brown in colour and have clayey texture and granular to blocky structure.

Shallow soils occur in the extreme eastern part in Jat Tahsil. They are light brown to reddish brown in colour. They are loamy sands to sandy clay in texture and are usually structure less. Deep soils from the low rainfall areas, unless properly managed develop saline alkaline conditions. They are dark brown in colour and have a sandy loamy texture and blocky structure. Sodium saturation is very high indicating the deteriorated conditions. The soils are poor in plant nutrients unless reclamation measures are adopted. Normal yields of crops are not obtained.

Agriculture

Most of the people of this District are engaged in agricultural activities. As per 2011 Census, 39.55 percent of the total workers are engaged as cultivators and 23.92 percent of the total workers are engaged as agricultural labourers in the District. They together constitute 63.47 percent of the total workers of the District.

Irrigation

The Concept of irrigation implies the existence of source of water supply within a reasonable distance and an arrangement to regulate the supply of the water according to the day-to-day needs of the crops rose in these fields. Naturally therefore all areas, which are cultivated under purely rain fed conditions, are treated as unirrigated lands.

Columns 113 and 114 of the Village Directory give all the agricultural land and when added together would correspond to the net area sown. Area sown more than once during the same year, if any, in the village is counted only once under this column. Columns115 to 119 give source wise

breakup of the irrigated area. All lands that are lying uncultivated as fallow for more than 5 years in succession are recorded as permanent fallow (Culturable waste) and are covered under column 109.

Animal Husbandry

As per Census of livestock of 2003, the information on important number of livestock and livestock indicators are given below.

1) Total Cross bred / Indigenous Cattle	---	4,54,399
2) Total Buffaloes	---	4,23,341
3) Total Sheep	---	3,69,967
4) Total Goats	---	2,07,569
5) Total Equine	---	9,170
6) Total Donkey	---	N.A.
7) Other Livestock	---	65,193
8) Total Hen	---	21,25,068
9) Total Poultry	---	21,27,346

Source: Livestock Census 2003, as published in District Socio - Economic Review, 2010

In the District there are 4,54,399 crossbred/indigenous cattle, 4,23,341 buffaloes, 3,69,967 Sheep, 2,07,569 goats, 9,170 Equine. The Total poultry is 21,27,346 including 21,25,068 hens.

Fishery

The fishing activities in the District is restricted to the inland waters i.e., the river, ponds and lakes. The fishermen of the District belong to Koli, Bhoi and Bagadi communities. Their fishing methods are largely restricted to drag nets known as “Vadap”, cast nets “Phekjal” or “Pag”, bag nets “Ghal”, hooks and lines or in some places gill nets or “Kandal”. The nets are largely made of cotton twine but nylon is also being used effectively.

The commercially important varieties of fish found are Vam, Aheer, Vadshi, Mhasheer, Kolshi, Khavli, Tambir, Shingada, Murrels etc. The fast growing varieties like Rohu, Catla and Mrigal are also stored in the ponds.

The District has 392 kms of river belt. During 2009-10, about 6,795 hectares of water-spread area was available for fishing activities in the District. About Rs.4.34 crores of fish weighing 2,500 metric tons was produced. About 81.70 Lakh fish egg was used during the same period.

Industry

Industrially, Maharashtra is one of the advanced States in the country whereas Sangli is one of the developing Districts in the States. Many power loom workshops and sugar factories have been established in this District.

The industrial policy of the State is based on the basic decision to encourage industries in developing and underdeveloped areas in the District and to disperse industries from heavily congested areas of Mumbai, Thane and Pune. In the District there are power-loom workshops in Sangli, Madhavnagar, Vita and Miraj.

The most important industry in the District is sugar manufacturing industry. Other registered units are milk dairies, electronic industries, leather industries, engineering workshops etc.

Trade and Commerce

The District is well known for sugar, grapes, milk etc. Sugarcane is mainly grown in Walwa and Miraj Tahsils. The chief export articles of the District are sugar, milk, kismis etc. Musical instruments machinery spare-parts, gray cloths etc. are also exported to main cities like Mumbai, Pune, and Thane etc.

The chief import articles are cloth, medicines, petrochemical products etc. Most of goods are imported from Mumbai, Pune and Kolhapur. Apart from the weekly markets all the eight Towns are important trade centres also.

In the District main manufactured items are sugar, milk and milk products, cotton clothes etc. Turmeric powder, grapes, kismis, gray cloth, edible oil, jowar etc. are also manufactured.

It may be seen that the District had 317,307 two wheelers. There were 945 buses, 25,795 Cars and Station Wagons, 12,345 Jeeps, 900 taxies and 8,309 auto rickshaws (7,436 three Seaters and 873 six Seaters). Besides these 337 other modes of transport, the District also had 13,754 tractors and 12,284 trailers as means of transport. There are 352 Light Vehicles Permit Holders, 12,516 Heavy Vehicles Permit Holders and 8,309 Auto rickshaw Permit Holders in the District.

Electricity and Power

All the 7 Towns and 725 (100 percent) inhabited villages are enjoying power supply facility in the District.

Gram Panchayat, its composition, jurisdiction and the role in the Development of village and its economy.

Gram Panchayat is the lower most rung of the democratic set-up of India. It is governed by the 'Bombay Village Panchayat Act, 1958'. The 'Sarpanch' and in the absence of Sarpanch, the 'Upa-Sarpanch' preside over every meeting of 'Gram Sabha'. At least four meetings of the 'Gram Sabha' are held every year. Sarpanch and UpaSarpanch are elected from amongst the elected members of the Panchayat.

73rd Constitutional Amendment

To make Panchayat Raj Institutions strong and to give more power to the people, the State Panchayat Act has been amended in confirmation with the 73rdConstitutional amendment, which is implemented in the State in April 1994. The Main fundamental provisions of the 73rd Constitutional amendments are as follows:

1. Constitution of Panchayat Raj Institutions at village, Intermediate (Development Block) and District level.
2. The seats and the offices of the Chairpersons in the Panchayats at all the levels to be reserved in favour of Scheduled Castes and Scheduled Tribes in proportion to the percentage of population of the Scheduled Caste or Scheduled Tribe, as the case may be.
3. The elections to these Panchayat Raj Bodies to be held at the interval of every five years.
4. Powers, Authority and Responsibilities of Panchayats:-
   (a)The preparation of plans for economic development and social justice.
   (b)The implementation of schemes for economic development and social justice as may be entrusted to them including those in relation to the matters listed in the Eleventh Schedule.
5. An independent State Election Commission to conduct the elections.
6. Powers to impose taxes by and funds of, the Panchayats.
7. Constitution of Finance Commission by the State at the expiry of every five years term to review the financial position of the Panchayats and to make recommendation regarding distribution of State resources between the State and the Panchayat.

Constitution of Gram Panchayat

The Gram Panchayat consists of not less than seven and not more than seventeen members elected from Wards on the basis of adult franchise. They hold office for a term of five years. Among these, a few seats are reserved for persons belonging to the Scheduled Castes, the Scheduled Tribes, Backward Class of citizens and Women, as may be determined by the State Election Commission in the prescribed manner.

Administrative powers and duties of Panchayats

Administrative powers and duties of Panchayats are - to take care of the funds at its disposal, to take over and maintain water supply schemes through "Village Water Supply Fund", to make provision for carrying out within/outside the village any work subject to any directions made by State Government for any scheme or for any purpose sponsored by the Government, to make provision for carrying out work which is likely to promote health, safety, education, comfort, convenience or social or economic or cultural well- being of the inhabitants of the village, to make provision for

entertainment, public reception, contribution towards annual gathering, to encourage farmers and co-operative societies to increase and improve agricultural production etc.

Powers and duties of Panchayats in the Scheduled areas

Powers and duties of Panchayats are - to obtain from the Gram Sabha a certification of utilization of funds for the plans, programmes and projects, prospecting licence or mining lease for minor minerals, control on erection of building, to remove any obstructions and encroachments upon public streets and open sites etc.

Establishment, Budget and Accounts

The day to day work of the Panchayat is done by Secretary of Panchayat. The Chief Executive Officer of Zilla Parishad appoints the Secretary of Panchayat. His salary is paid from the District fund.

The budget of the village Panchayat is submitted to the Panchayat Samiti. It covers opening balance in the fund, estimated income, proposed expenditure and the amount to be contributed to the District Village Development Fund. The sanctioning authority of the village budget is Panchayat Samiti.

Taxation and Recovery of Claims

The taxes levied by the Panchayat are - tax on buildings and lands, betterment charge or the lands benefited from schemes or projects undertaken by Panchayat from 'Village Fund', pilgrim tax, tax on fairs, festivals and other entertainments, tax on bicycles and on vehicles drawn by animals, tax on professions, trades, callings or employments, shop keeping and hotel-keeping, general sanitary cess, general water rate, a lighting tax, fee on markets and weekly bazars, fee on car stands/tonga stands, special water tax for water supplied through pipes, fee for the supply of water from well and tank for purposes other than domestic use and for cattle, fee for temporary occupation on public street, special sanitary cess upon private latrines, fee for cleaning cess pool, fee for grazing cattle, fee on the registration of animals, lump sum contribution by factories in lieu of taxes levied by Panchayat, farming of fees on markets, collection of cess on every rupee of land revenue etc.

Financial Assistance to Panchayats

Gram Panchayat receives financial assistance from the State Government, loan by Zilla Parishad, Equalisation grant, Village Water Supply Fund and District Village Development Fund.

Gram Panchayat-role in the Development of the village

Since the Gram Panchayat controls the village fund, it has an immense role in the development of the villages. It makes reasonable provision within the village and submits to the Panchayat Samiti for approval. It supervises the village water supply scheme. It makes provision for carrying out within the village any work which promotes health, safety, education, comfort, convenience or social or economic or cultural well-being of the inhabitants of the village.

Gram Panchayat can make provision for any public reception, ceremony or entertainment within the villages or make contribution towards at annual gathering or such other gathering of Panchayats in the District or the State.

It encourages farmers of the village to make use of co-operative societies in increasing and improving agricultural production. It supervises primary schools situated within the area of its jurisdiction.

Last but not the least, it is duty bound to take measures for the amelioration of the condition of Scheduled Castes and Scheduled Tribes and Other Backward Classes and in particular, in the removal

of un-touch ability carry out the directions issued in this regard from time to time by the State Government.

Objectives of the Local Self Government

With a view to promote development of democratic institutions and to secure greater measure of participation by the people in Development Plans and in local and governmental affairs by decentralization of powers and functions, Zilla Parishad and Panchayat Samitis (C. D. Blocks) have been established in the District of Maharashtra in the year 1962 under the Maharashtra Zilla Parishad and Panchayat Samiti Act of 1961. The jurisdiction of Zilla Parishad and Panchayat Samiti i.e. C.D. Blocks corresponds to the District and Tahsil boundaries except that the statutory towns are not covered by them.

The local self-bodies are working as agencies of State Government. The 73rd Constitutional Amendment gave local self-bodies the constitutional status. The new power bestowed upon them gave a great impetus to the development plans and its implementation.

Zilla Parishad

The Zilla Parishad has the authority for the purposes of the Act over the area for which it is established. The authorities charged with carrying out the provision of this Act for each District are–

a) The Zilla Parishad,
b) Panchayat Samiti,
c) The Standing Committee,
d) The Subjects Committees,
e) Presiding authorities,
f) The Chief Executive Officer and
g) The Block Development Officer.

The Zilla Parishad is assisted in its function by number of departments and each department is headed by class I or class II officers of the State Services.

Zilla Parishad consists of Councillors directly elected on the basis of adult franchise from electoral divisions in the District for a term of five years. The number of councillors being not more than seventy-five and not less than fifty, some seats of councillors are reserved for the persons belonging to Scheduled Castes, Scheduled Tribes, Women and Backward Class citizens.

Grants to Zilla Parishad

1. Grant of 7 percent of forest revenue to Zilla Parishad.
2. Purposive grant – State Government pays every year to Zilla Parishad a grant for works and development schemes transferred to Zilla Parishad.
3. Establishment grant – State Government pays by way of establishment grant, the average cost on account of the salaries and allowances.
4. Local cess matching grant – State Government pays a local cess matching grant to be paid to Panchayat Samiti through the Zilla Parishad.
5. Incentive grant – State Government pays to Zilla Parishad an incentive to speedier development.
6. Grants for plan schemes – State Government pays grant for such works and development schemes relating to any subject enumerated in the District List as are included in the development plan of the State.

7. Block grant – State Government pays to each Panchayat Samiti through Zilla Parishad for carrying one such work and development scheme.

The development work of the District is carried out through the various committees appointed for the purpose by the Zilla Parishad. The executive power for the purpose of carrying out the provisions of the Act lies with the Chief Executive Officer, who is appointed by the State Government.

All the development work within the District is carried out by the Zilla Parishad through the District Fund at its disposal.

The Deputy Chief Executive Officer works as the ex-officio secretary of the Zilla Parishad.

Panchayat Samiti

Panchayat Samiti consists of members elected by direct election, its jurisdiction being the C.D. Block. The term of the members is five years. The Block Development Officer is the ex-Officio Secretary of the Panchayat Samiti. The Chairman and Deputy Chairman are elected by and from amongst the members of the Panchayat Samiti.

The overall plan of work and development schemes within the block is prepared and executed by the Panchayat Samiti.

Devolution of Powers and functions

As per the 73rd Constitutional Amendment, Articles 243-G and Schedule 11 of the Constitution, 29 subjects are to be transferred to the Panchayat Raj institution. The State Government implemented this amendment in April 1994 and provisions were made in the State Panchayat Raj Act to transfer these subjects to the Zilla Parishads, Panchayat Samitis and the Village Panchayats.

Urban local bodies

The statutory urban local bodies are Cantonments, Municipalities or Municipal Corporations. The urban local bodies elect a Councillor from each of the Wards. The President of the Municipal Council or the Mayor of the Corporation and also his Deputy are elected from amongst the elected Councillors. The Chairmen of the various committees are also elected from amongst the elected Councillors. Although for day-to-day administration, the Chief Officer is responsible for a Municipal Council, he works under the administrative control of the President of Municipal Council.

Census concepts

Building:

A 'Building' is generally a single structure on the ground. Usually a structure will have four walls and a roof. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc., but in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Pucca houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, stones (duly packed with lime or cement mortar), G.I./Metal/

Asbestos sheets, Burnt bricks, Cement Bricks, Concrete. Roof may be made of from any one of the following materials, namely, Machine-made tiles, Cement tiles, Burnt bricks, Cement bricks, Stones, Slate, G.I./Metal/Asbestos sheets, Concrete. Such houses are treated as pucca house.

Kutcha houses

Houses, in which both walls and roof are made of materials which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, unburnt bricks, bamboos, mud, reeds, thatch, plastic/polythene, loosed packed stone, etc., such houses are treated as Kutcha house.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and veranda which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census house is used as a shop or office etc. and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both. If a building has a number of Flats or Blocks/Wings, which are independent of one another having separate entrances of their own from the road or a common stair case or a common courtyard leading to a main gate, these are considered as a separate census house.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in the census are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. The urban area comprises two types of towns viz: Statutory towns and Census towns. In the Census of India 2011, the definition of urban area adopted is as follows:

(a) Statutory Towns: All places with a municipality, corporation, cantonment board or notified town area committee, etc. are known as Statutory Towns.

(b) Census Towns : All other places satisfying the following three criteria simultaneously are treated as Census Town.

i) A minimum population of 5,000 :

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km. (1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 2001 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against (b) (ii), the data relating to main workers were taken into account. In addition to the above stated towns, urban areas also constitute of O.Gs which are the parts of U.As.

City

Towns with population of 100,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together with or without urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, military camps etc., may come up near a statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may qualify to be clubbed with the existing town as their continuous urban spread (i.e., an outgrowth). Each such town together with its outgrowth(s) is treated as an integrated urban area and is designated as an 'Urban Agglomeration'. For the purpose of delineation of Urban Agglomerations during Census of India 2011, following criteria has been adopted :

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of an Urban Agglomeration (i.e., all the constituents put together) should not be less than 20,000 as per the 2001 Census. It varying local conditions, there were similar other combinations which have been treated as Urban Agglomerations satisfying the basic condition of contiguity.

Out Growth (OG)

The outgrowth is a viable unit such as a village or a hamlet or an enumeration block and clearly identifiable in terms of its boundaries and location. While determining the outgrowth of a town, it has been ensured that it possesses the urban features in terms of infrastructure and amenities such as pucca roads, electricity, taps, drainage system for disposal of waste water etc., educational institutions, post offices, medical facilities, banks etc., and physically contiguous with the core town of the UA.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent

of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen/common cooking. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, observation homes, beggar homes, jails, ashrams, old age homes, children homes, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2011, it was specifically mentioned that this category of households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the Castes, races or tribes or parts of or groups within Castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and/or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Castes in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar Caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person. Mother tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. The main point to note is that the activity should be economically productive. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or from government or from private persons or institutions for payment in money, kind or share. Cultivation also includes effective supervision or direction in cultivation. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the plantation crops like tea, coffee, rubber, coconut and betel-nuts (areca). The worker engaged in plantation crops are recorded under "Other Workers".

Agricultural labourer

A person who works on another person's land for wages in cash or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by one or more members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.The activity relate to production, processing, servicing, repairing or making and selling of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the last year of reference period but not as a cultivator or agricultural labourer or worker in Household Industry. The type of workers that come under this category include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In fact, all those workers other than cultivators or agricultural labourers or household industry workers are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of the completed number of years.

Sex -ratio

Number of females per 1000 males in a population.

Non Census Concepts

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/Municipal council, Municipality etc.

Size class of UA / town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population are classified as Class I UAs. / towns. Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as (a) Areas where buildings are in any respect unfit for human habitation; or (b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut-off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 million and above population have been treated as Mega cities and the same criteria of population have been adopted in 2011 census.

Concepts used in VD and TD of DCHB

1. Educational Amenities : The type of different educational facilities available in the village is given in numbers. Both government and private educational facilities/institutions are considered for this purpose. If there are composites school like middle school with Primary classes or Secondary schools with Middle classes, these are included in the number of Primary and Middle school respectively. For example, if in a village, there are two Primary schools and one Middle school with Primary classes, the number of Primary schools in the village is given as three and that of Middles schools as one even though there may be only three educational institutions. Similarly, this applies so also in case of Secondary Schools. For better understandings, the distinctiveness of different types of schools is depicted hereunder.

1.1. Pre-primary (PP) : Now-a-days, the children are sent to schools at a very early stage. Lot of Pre-primary schools, private schools in particular have come up in villages and towns. These may or may not be recognised by the competent authorities. Even many Secondary schools have classes starting from Pre-primary level. Pre-primary classes include Nursery, K.G., Pre-basic, Play school etc.

1.2. Primary School (P) : Schools providing education from standard I and upward up to and inclusive of Standard IV are classified as Primary schools.

1.3. Middle School (M) : Schools providing education from standard V and upward up to and inclusive of standard VII are classified as Middle schools. A school with class I to VII is treated as two units, i.e. one Primary school and one Middle school.

1.4. Secondary School (S) : Schools providing education from standard VIII and upward up to and inclusive of Standard X are classified as Secondary schools. A composite school with I to X standard is treated as three separate units and counted separately under the categories of Primary school, Middle school and Secondary school.

1.5. Senior Secondary School (SS) : Schools and colleges that provide education for standard XI and XII and first and second year of the Pre-University Course fall under this category. There are Senior secondary schools with standard I and upward to standard XII.

1.6. Degree college

(i) Arts/Science/Commerce : These are all educational institutions that provide post- PUC level education leading to University degree/diploma in any subject or combination of subjects and also post-graduate levels of educations. The college offering courses in Arts, Science or Commerce either separately or in combination are covered under this category.

(ii) Engineering College (E) : It is a graduate/post-graduate degree college providing Bachelor of Engineering (BE) or Bachelor of Technology (B.Tech.) or post-graduate engineering degrees like M.Tech.

(iii) Medical Colleges : These are graduate/post graduate degree colleges providing MBBS or equivalent degree in alternative medicine like Ayurveda, Unani, Homeopathy etc. or post-graduate medical degrees like M.D. or equivalent in the above branches of medicine.

1.7. Management College/Institute (MI) : It offers courses like Diploma in Management, Post-Graduate Diploma in Management Masters of Business Administration (MBA) and specializations in different disciplines of Management like Marketing, Human Resources Development (HRD) etc.

1.8. Polytechnic (Pt) : An Institution providing certificate/diploma (not equivalent to degree) in any technical subject like engineering, vocational courses like embroidery, fashion designing etc. It may be both Government and Private.

1.9. Vocational School/ITI : It is a Vocational training institute imparting trainings in specific fields acquiring necessary skill, which will make the trainees employable or create them opportunities of self-employment. Training offered by Industrial Training Institute (ITI) fall under this category.

1.10. Non-formal Education/Training Centre (NFTC) : Non-vocational education centres, established by the Central and State Governments provide educational facilities to the interested persons irrespective of educational qualification and age. These education Centres are opened to all.

1.11. Special School for Disabled : There are Government and Government recognised institutions/organisations engaged for providing education to different groups of disabled persons.

2. Medical Facilities

2.1. Hospital-Allopathic and Hospital-Alternative medicine : A hospital is an Institution, were sick or injured are given medical or surgical care. Bed strength differs from hospital to hospital ranging from 31-500 depending upon whether these are Sub-District, sub-divisional or District hospitals. If there are hospitals providing facilities under different systems of medicine such as, Allopathy, Ayurveda, Unani and Homeopathy etc., these details are given separately.

(a) Allopathy : The system of medical practice, which treats disease by the use of remedies which produce effects different from those produced by the disease under treatment.

(b) Ayurveda : Ayurveda means "Science of Life". The philosophy of Ayurveda is based on the theory of Pancha Mahabhootas (Five elements) of which all the objects and living bodies are composed of. The combination of these five elements is represented in the form of Tridosha: Vat, Pitta and Cough. These 'Tridoshas' are physiological entities of living beings. Ayurveda developed in eight distinct specialities i.e., Internal Medicines, Paediatrics, Psychiatry, Eye and ENT, Surgery, Toxicology, Geriatrics and Science of Virility. Two types of treatments, Preventive and Curative are given in Ayurveda.

(c) Unani : Treatment of Unani consists of three components, viz., preventive, promotive and curative. Unani system of medicine has been found to be efficacious in conditions like Rheumatic Arthritis, Jaundice, Filarisis, Eczema, Sinusitis, and Bronchial Asthma. For the prevention of the disease and promotion of health, the Unani system emphasizes six essentials: pure air, food and water, physical movement and rest, psychic movements and rest, sleep and wakefulness and retention of useful materials and evacuation of waste materials from the body.

(d) Homeopathy : Treatment in Homeopathy, which is holistic in nature, focuses on an individual's response to a specific environment. Homeopathic medicines are prepared mainly from natural substances such as plant products, minerals and animals sources. Homeopathic medicines do not have any toxic, poisonous or side effects. Homeopathic treatment is economical as well and has a very broad public acceptance.

2.2. Community Health Centre (CHC): Community Health Centres are designed to provide referral health care for cases from PHC and those in need of specialist health care approaching the CHC directly. 4 PHCs are included under each CHC thus catering approximately 80,000 populations in tribal/hilly areas and 1, 20,000 populations for plain areas. CHC is a 30 – bedded hospital providing specialist care in Medicine, Obstetrics and Gynaecology, Surgery and Paediatrics.

2.3. Primary Health Centre (PHC): A Primary Health Centre is the first contact point between a village community and the Government medical officer. A PHC covers a population of 20,000 in hilly, tribal or difficult areas and 30,000 populations in plain areas with 4-6 indoor-observation beds. It acts as a referral unit for 6 sub-centres. It has a medical officer and para medical staff.

2.4. Primary Health Sub-centres (PHS) : A Primary Health Sub-centres is the first contact point between the primary health care system and the community. As per the population norms, one PHS is established for every 5,000 population in plain areas and 3,000 population in hilly/tribal/desert areas. Each PHS has a sanctioned strength of one male and one female health worker.

2.5. Maternity and Child Welfare Centre (MCW): It provides pre-natal and post-natal services for both mother and child. The services include regular check-up of pregnant women, giving folic tablets, counselling, delivery, immunization of children with check-up etc.

2.6. TB Clinic (TBC) : The diagnosis and treatment of TB are functions of the general health services and hence it is a part and parcel of Primary Health Care. Specialized units such as the District Tuberculosis Centre (DTC) act a referral centres. TB clinics are established by the Government of India under the National Tuberculosis Control Programme and implemented through a network of DTC. The DTC is the nodal point for TB control activities in the District and it also functions as a specialized referral centre. The functions of Sub-District level Tuberculosis Unit (TU) are implementation, monitoring and supervision of TB control activities in its designated geographical areas.

2.7. Health Centre : Clinic where medicine and medical supplies are dispensed. It has no in-patient facility. A clinic (or an outpatient clinic) is a small private of public health facility that is devoted to

the care of outpatients, often in a community, in contrast to larger hospitals, which also treat inpatients.

2.8.Dispensary : Place where patients are treated and medicines provided but with no in-patient facility, immunizations, MCH Services and sometimes pathological tests are carried out here. It may be of allopathic or any alternative medicine.

2.9. Veterinary Hospital : Mostly run by the State Government or local body for treatment and preventive measures against diseases of domestic animal like cows, buffaloes etc. in rural areas.

2.10. Mobile Health Clinic : These are Mobile Vans well equipped with a range of health services to villages located far away from the CHCs, PHCs or any public health sources. The vans visit villages on designated day to deliver the health care services. The services generally offered are OPD, Anti-natal, Post-natal, B.P. examination, X-ray, ECG, immunization and First aid etc.

2.11. Family Welfare Centre : Check-up and counselling is provided to the pregnant and the married women regarding small family norm and devices for having a small family. Temporary and permanent contraceptive devices are provided here.

2.12. Nursing Home : A Nursing Home is a long term care facility licensed by the State that offers 24 hours room and board and health care services including basic and skilled nursing care, rehabilitation and full range of other therapies, treatments and programs to old and sick people. The difference between a hospital and a nursing home is that a nursing home gives importance to convalescence from a disease while a hospital gives medical treatment for the disease.

2.13. Medicine Shop : A shop with sales drugs and medicines of any system of medicine viz., allopathic, homeopathic, Ayurveda or Unani medicines is considered as a medicine shop. Sometimes some shops and pan shops also keep ordinary medicines like Crocin, Burnol etc. These shops are not taken as medicine shop.

3. Drinking Water : The following are the main source of drinking water facility (ies) available in the village.

3.1. Tap Water-treated : This source of drinking water refers to a source of drinking water which is provided to the villages through pipes within their premises or to the villages through common taps (Public taps/community water points) by the Government departments, local bodies, Panchayats, public or private estate agencies etc. after treatment. Such a source is treated as 'Tap water from treated source'.

3.2. **Tap Water-un-treated** : If the villages are drawing drinking water through pipes either directly from a well or bore well or after pumping the well or tube well water or the water is supplied through pipes to the households of the village or through public taps without treatment. Such a source is treated as 'Tap water from untreated source'.

3.3. Covered Well (CW) : A well that is (1) covered on sides from run-off water (i.e., excess water from rain, snow melt or other sources flows over the land) through a wall lining or casting that is raised above ground level on a platform that diverts spilled water away from the well and (2) covered so that bird droppings and animal cannot fall down the hole. It is considered as covered well.

3.4. Un-covered Well (UW) : A well which is (1) un-covered on sides from run-off water, (2) Un-covered bird droppings and animals or (3) both.

3.5. Hand pump (HP) : Hand pump means where ground water is taken out manually by operating a hand pump.

3.6. Tube Well/Borehole (TW) : Tube well denotes the ground water source from where ground

water is taken out through electrical or diesel pump. Spring, River/Canal, Tank/Pond/Lake are self-explanatory.

4. Community Toilet Complex : Community toilet may be constructed and maintained by Gram Panchayats or Private NGOs like Sulabh Shauchalaya or likes.

5. Rural Sanitary Mart or Sanitary Hardware Outlet (RSM) : It is an outlet dealing with the materials hardware and designs required for the construction of not only sanitary latrines but other sanitary facilities such as compost pit, washing platform and other sanitation and hygienic accessories required for individuals, households and the environment in the rural areas.

6. Community bio-gas or recycle of waste for productive use : Many of the solid wastes having economic values but put for disposal can be recycled for reused e.g., food, cow dung, leaves, vegetables, paper, wood, plastics, old cloth etc. However some of the wastes are not recyclable. These are carbon paper, thermocol etc. When recyclable solid waste is subjected to decomposition, bio gas could be produced under favourable conditions. These systems of recycling may be there at the village level organized by Gram Panchayats with technical support from Governments or Non-Governments organisation.

7. Communication and Transport facilities :

7.1. Post Office (PO) : Self-explanatory.

7.2. Sub-Post Office (SPO) : Sub-Post office includes Extra Departmental Post Offices and those providing Franchise postal services and also part time services in lieu of some honararium. The limited postal services include sell of stamps, receipts of letters and money order and also distribution of letters.

7.3. Post & Telegram Office (PTO) : Telegraph office is setup by the Government to enable people to send or receive telegrams. If the phonograms facility is available (though the Telegraph office may not be equipped with Morse Code Transmitter), the village is considered to be having telegraph facility.

7.4. Telephones (landlines) : If the village is having the Public Call Office (PCO) either run by the Post Office or by the individuals or by a private shop, then the village is considered to be having telephone facility.

7.5. Public Call Office (PCO)/Mobile PCO : Self-explanatory.

7.6. Mobile Phone Coverage : Mobile phones are now very common particularly in Urban areas. Some villages by virtue of being in close proximity to the urban areas also enjoy the benefits of the mobile phone services. Even if a few villagers avail the services of mobile phones, then the village is considered to be having access to mobile phone.

7.7. Internet Cafes/Common Service Centres (CSC) : If the village is having the facility of cyber cafes or shops own by private individuals providing the facility of surfing of the internet, then the village is considered to be having access to internet/cyber cafe facility. Government of India formulated the scheme of CSC with the vision of providing all Government services in an integrated manner at the door steps of the citizen at an affordable cost even in the remotest corners of the country through a combination of it based as well as non –IT based services.

7.8. National Highway (NH) : These are main highways running through the length and breadth of the country. Each NH is numbered like NH-1, NH2 for easy identification.

7.9. State Highway (SH) : These are roads of a State linking District headquarters and important

cities within a State and connecting them with NHs or Highways of the neighbouring States.

7.10. Major District Road (MDR) : These are important roads within a District, serving areas of production and markets and connecting these with each other or with the main highways.

7.11. Other District Road (ODR) : These are roads serving rural areas of production and providing them with outlet to market centres, taluka headquarters, block development headquarters or other main roads.

7.12. Village Road : The approach to village refers to the State of road etc., leading to the village. This is to see whether the village is approachable both in fair and foul weather and whether it is in accessible only for some time in the year.

7.13. Black-Topped (Pucca) Road (BTR) : A road provided with a bituminous surfacing.

7.14. Gravel (Kuchha) Road (GR) : A road constructed using well compacted crushed rock or gravel material (Coarse sand, small stones), which is fairly resilient and does not become slippery when wet.

7.15. Water Bound Macadam (WBM) : These is the road layer made of crushed or broken mixer of sand and rock fragments mechanically inter locked by rolling and void field with screening and binding material with the assistance of water.

7.16. Foot Path (FP) : A trodden path for the use by pedestrians and in some cases bicycles. The foot paths are not suitable for vehicular traffic accept bicycles in some cases. Most of the interior/forest villages are connected by foot path.

8. Bank and Credit Societies: Banking facility means a place where a person can operate a bank account.

8.1. Commercial Bank (CB) : These may be banks wholly owned by the Government of India or by Indian or foreign companies.

8.2. Co-operative Banks (Co-op. B) : A Co-operative bank is a financial entity which belongs to its members, who are at the same time the owners and the customers of their banks. Co-operative banks are often created by persons belonging to the some local or professional community or sharing a common interest. These banks are registered under the Co-operative Societies Act. The Co-operative banks are regulated by RBI and are covered by the Banking Regulations Act, 1949.

8.3. Agricultural Credit Society (ACS) : Measure objectives of the ACS are to supply agricultural credit to meet the requirements of funds for agricultural productions, the distribution of essential consumer commodities, the provision of storage and marketing facilities and for light agricultural implements and machinery.

8.4. Non-Agricultural Credit Society (NCS) : These society include consumer co-operative societies and also credit co-operative societies of certain categories of persons like teachers, health workers etc.

9. Miscellaneous Facilities :

9.1. Self-help Group (SHG) : Self-help Groups are groups of between 10-25 women created by either NGO's or under the SGSY (Swarnajayanti Gram Swarozgar Yojana) for the purposes of meeting local credit needs. They are sometimes called Mahila Mandals in villages.

9.2. Public Distribution System (PDS) Shop : The shop through which some essential commodities are sold by the Government at subsidised rate. They may also be known as Ration Shops and Control Shops.

9.3. Mandis/Regular Market : These are those clusters or shops with or without fixed premises

which are open on at least six days a week and opens at least from morning hours to dusk.

9.4. Weekly Haat : These are those clusters of shops with or without fixed premises which are open once in a week.

9.5. Agricultural Marketing Societies : It is a common platform to analyse the issues among all the individuals and institutions in the fields of agricultural marketing.

9.6. Nutrition Centre : Integrated Child Development Services (ICDS) : The Integrated Child Development Services (ICDS) Scheme set up by the Government of India with the objective of providing following package of services to the children under 6 years and pregnant and lactating mothers in villages such as; Immunization, Health Check-up, Referral Services, Pre-school Non-formal Education and Nutrition & Health Education.

9.7. Anganwadi Centre : Each centre under the ICDS scheme is run by an Anganwadi Worker. One Anganwadi worker is appointed for specified population of the village. They are basically local women. They are assisted by Anganwadi helper. They provide pre-school non-formal education at the Centre and provide food to the children.

9.8. Accredited Social Health Activist (ASHA) : ASHA is a health activist in the community who will created awareness on health and its social determinants and mobilize the community towards local health planning and increased utilization and accountability of the existing health services. She would be a promoter of good health practices. She will also provide a minimum package of curative care as appropriate and feasible for that level and make timely referrals. She will act as a motivator of different types of health related activities. Unlike ANM, she will not be involved in any clinical activities like immunization.

9.9. Sports Club/Recreation Centre: Indoor and out-door games are arranged by the Club and activities like wrestling, Judo Karate etc., are also done here.

9.10. Cinemas/Video Hall (CV) : If regular cinema houses licensed by Government are available, then the town/village is considered to be having the facility of Cinema Hall. Video hall owners screen films in their own or hired premises.

9.11. Public Library : Books are kept there which can be accessed by the public on loan basis. These may be sponsored by Government or Local Body or Panchayat or any influential person. Free service or nominal charges are made for using the facility.

10. Availability of Electricity/Power : If power is actually available, whatever may be the form of its use, it is indicated affirmative. If the village is having electricity for domestic purposes and the residents are using the same for domestic use, then it is considered that domestic power supply is available. If the electricity authority has not given domestic supply to the households on their request and people are using unauthorized electricity either by stealthily or misuse the supply meant for agricultural or industrial purposes, then it is not considered as availability of electricity for domestic purposes. However, if the village goes out of power due to temporary technical problems such as, transformer failures, theft of electrical equipment's etc. it is considered that electricity is available. Supply of electricity is considered available even when there is a temporary ban on new domestic connection. Connections to residential houses, bungalows, clubs, hostels and hospitals run on non-

commercial basis, Charitable, educational and religious institutions are included in the domestic category.

10.1. Power Supply for Domestic Use : This category includes electricity use only for domestic consumptions.

10.2. Power Supply for Agricultural Use : This Category includes all electricity connections given to the farmers for conducting various agricultural activities including irrigation.

10.3. Power Supply for Commercial Use : This Category includes electricity connections given for workshop, industries etc. or for any commercial purposes.

10.4. Power Supply for All Uses : This Category includes electricity connection is available for domestic use, agricultural use and for any commercial purposes.

11. Land Use Pattern : The land use area of the villages is given in hectares. The land use pattern in the Village Directory conform to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry has recommended the maintenance of records of land use pattern under the nine categories as indicated in the Village Directory.

12. System of Drainage : Generally by drainage system, we mean the network of main and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial estates are call separate sewers; those that carry storm water from roofs, streets and other surface are known as storm water drains, While those carrying both sewage and storm water are called combined sewers. However, in towns which are not provided with such underground sewerage system, it is mentioned whether it has open drainage system. There may be possibility of the town having both close as well as open drainage systems.

13. Types of Latrines : The data of various types of latrines both public and private together are collected. The three types of latrines considered here are, Pit System, Flush/Pour Flush Latrine and Service Latrine.

(i) Pit System : The latrines are attached to the pit i.e. dug into the ground for the reception of night soil and these are reckoned as pit latrine.

(ii) Flush/Pour Flush : A flush latrine uses a cistern or holding tank for flushing water and has a water seal, which is a U-shaped pipe, below the seat or squatting pan that prevents the passage of flies and odours. A pour flush latrine uses a water seal, but unlike a flush latrine, a pour flush uses water poured by hand for flushing (no cistern is used).

(iii) Service: Type of latrine from where night soil is removed manually by the scavengers. All other types of latrine are covered under “Other” category.

14. Protected Water Supply-Source and Capacity of Storage System: There are various sources of water supply and its storage system in the town.

14.1. Service Reservoir: A service reservoir is a water storage container that holds clean water after it has been treated in a water plant and before it is piped to the end users. These containers are covered and are designed to keep the water safe from contamination. Their main purpose is to provide a buffer with the water supply system so that the water supplies can be maintained across periods of varying demand.

14.2. River Infiltration Gallery : Infiltration galleries are capable of supplying large quantities of water and are used were wells are unable to supply water needs i.e. where are impermeable rock barrier affects well efficiency or where surface water surfaces are too shallow for intake screens.

Infiltration galleries one or more horizontal screen placed adjacent to (on-shore) or directly underneath (bed-mounted), a surface water source.

14.3. Bore Well Pumping System: A bore well is a well of 6'' to 12'' in diameter drilled into the earth for retrieving water. The depth of bore well can vary from 50 feet to 3000 feet. Water is pumped out to surface through electricity/generator.

14.4. Pressure Tank: Tank that is used to ensure consistent water pressure and for storage of water. Usually located in basement of house but sometimes (in older settings) located in well pit.

15. Road lighting (Points): Road lighting means the number of street lights that are maintained in the town.

16. Home Orphanage : Orphanage is the name of describe a residential institutions devoted to the care of orphans – Children whose parents are deceased or otherwise unable to care for them. Parents and sometimes grandparents are legally responsible for supporting children, but in the absence of these or other relatives willing to care for the children, they become a ward of the state and orphanages are a way of providing for their care and housing.

17. Working Women's Hostel : These may be recognised or non-recognised by any public authority. The data of number of working women's hostel available in the town are collected with number of seats.

18. Old Age Home : There are two types of old age homes in India. One is the "Free" type which cares for the destitute old people who have no one else to care for them. They are given shelters, food, clothing and medical care. The second type is the "Paid" home were care is provided for a fee. Nowadays, such "Retirement" homes have become very popular in India and they are well work considering.

19. Stadium : A stadium is a place or venue for (mostly) outdoor sports, concerts or other events, consisting of a field or stage partly or completely surrounded by a structure designed to allow spectators to stand or seat and view the event.

2011 Census Findings

Brief Note on Census

Census taking is a massive operation carried out in a short span of time with the active participation of a veritable army of enumerators. The reference moment for the Census 2011 was the 00.00 hrs, of 1st March 2011. The census provides a snapshot of the population of the country as on 1st March 2011. Actual enumeration was spread over a period of 20 days from 9th February 2011 to 28th February 2011, followed by a revisional round up to 5th March 2011 for updating of the population figures with reference to 00.00 hours of 1st March, 2011. A household schedule having 29 questions for information on every individual in the household was used in 2011 Census. These questions are mainly self-explanatory and answers are recorded in text or in codes depending on the type of information collected. Question No. 1 to 14 are related to general and socio-cultural characteristics of an individual. Question 15 to 22 are about economic activity of the person whereas Question 23 to 26 are about migration. Some information related to fertility is collected from women through Question no. 27 to 29.

As a prelude to the actual Census, the urban and rural areas were identified and listed out in respect of each administrative unit. The Directorate of Census Operations has prepared the list of urban area (which is generally referred to as town list) and simultaneously a list of villages. These lists in fact form the basic frame for the organization of the Census Operations. Thereafter, geographical area that could be covered conveniently carved out to constitute the enumerator's block.

The next major step was the house listing operation that was carried in the State during May-June 2010. Thereafter, in order to adhere to the prescribed workload norms, the actual Census enumeration blocks were formed on the basis of the layout sketches and the notional maps prepared was also utilised to collect wealth of information on items such as predominant construction material used for houses, amenities available to the Census households, number of living rooms etc. Information regarding Computer/Laptop, Mobile phone etc., was asked first time in this Census. From this information we can have an idea of standard of living of the people in the country.

In Maharashtra, Tahsil and the C.D.Block are co-terminus and therefore the data shown in tables on C.D.Blocks and the rural areas shown in the tables on Tahsils are same. And also, Sub-District in Maharashtra is known as Tahsil.

Distribution of Population in Rural-Urban Areas

According to Census 2011, the District has a total population of 28,22,143 persons, comprising of 14,35,728 males and 13,86,415 females. Thus, during the 2001-2011 decade, there has been an addition of 2,38,619 persons. In the rural areas the District reported a population of 21,02,786 persons and in urban it is 7,19,357 persons.

Although in absolute numbers the population in rural areas has increased from 19,50,306 in 2001 to 21,02,786 in 2011, but in terms of percentage share it has slightly decreased from 75.5 percent in 2001 to 74.5 percent in 2011 Census. The Tahsils of Shirala, Kadegaon, Palus, Atpadi, Kavathemahankal and Jat do not have urban areas. Tahsil Miraj has highest urban population (61.9 percent) and Tahsil Tasgaon has lowest urban population (15.1 percent).

Size class and Status of Towns:

As presented in Statement I of Town Directory, Towns are classified into six specific population size-classes according to the population recorded in decadal Censuses. The objective of such

classification is to make a comprehensive analysis of various demographic parameters at lower constituent units of urban areas.

Population Growth: The District recorded 28,22,143 persons comprising 14,35,728 males and 13,86,415 females. The District added 2,38,619 persons during the past decade with a growth rate of 9.2 percent.

Density: The District shows a density of population of 329 per km^2, whereas it is 256 for rural and 2030 for urban.

Sex Ratio: The sex ratio of the District is 966 in 2011 as against 929 for the State. In rural it is 963 and in urban it is 973.

Work Participation Rate: Percentage of workers (Main + Marginal) to total population is called as work participation rate. The District has a work participation rate of 43.06 percent in which there are38.09 percent main workers and 4.97 percent are marginal workers. The total work participation rate among males is 55.74 percent and among females it is 29.93 percent.

Literacy: The literacy rate of the District is 81.48 percent whereas it is 79.84 in rural and 86.24 in urban. Among males the literacy rate is 88.22 and among females it is 74.59 which make a male-female gap of 13.63 points.

Religion: The collection of data on religion has been a part of Census since 1872. In the Pre-Independence Census reports, the data on religion was being presented for nine major religions namely Hindu, Muslim, Tribals, Christian, Sikh, Jain, Buddhist, Parsi, Jew and Others. However, since the Census 1951, the data on religion has been presented for six major religions namely Hindu, Muslim, Christian, Sikh, Jain and Buddhist. Besides, all the other minor religions have been classified under the category of 'Others'.

The data on religion was collected in Census, 2011 through question No. 7 of Household Schedule where names and codes of six main religions were shown to facilitate the Enumerator to record the code of the religion reported by an individual. In the case of other religions space was provided to record the actual name. In case where an individual did not specify any Religion, those were recorded as "Religion Not Stated".

As per 2011 Census, 86.5 percent of the District population are Hindus and Muslims constitute about 8.5 percent. Remaining population consists of Jains (3.1 percent), Buddhists (1.4 percent) and Christian (0.3 percent). The proportion of Sikhs and others are negligible.

Availability of University education in the District: There is no university level education available in the District but the District is served by the Shivaji University, established in 1962, which is located in Kolhapur. The jurisdiction of the University (Kolhapur) is spread over three Districts viz., Kolhapur, Sangli and Satara with strength of about 3,00,000 students studying in 280 affiliated colleges and recognised institutes.

Mother Tongue

As per 2001 Census, Marathi is the principal language of the District and the mother tongue of 84.8 percent of the District population. In rural areas Marathi speakers account for 88.2 percent whereas in urban areas 74.3 percent. Kannada is the second largest language spoken in the District. It accounts for 5.6 percent of the total population. The proportion of Kannada speakers is higher in rural areas (6.2 percent) than the urban areas (3.5 percent). The third largest language spoken in the District is Urdu, its percentage to the total population is 4.1 and mainly spoken in urban areas by 11.8 percent, whereas it is 1.6 percent in rural areas.

Scheduled Castes and Scheduled Tribes

In 2011 Census, the District recorded 3,53,093 (12.51 percent) Scheduled Caste population and 18,333 (0.65 percent) Scheduled Tribe population as against respective figures as 313,474 (12.1 percent) and 17,855 (0.7 percent) in 2001 Census. In rural areas, the District recorded 2,52,350 (12 percent) Scheduled Caste population and 12,820 (0.61 percent) Scheduled Tribe population, whereas in 2001 Census their numbers were 2,31,295 (11.9 percent) and 13,854 (0.7 percent) respectively. Similarly in urban areas there were 1,00,743 (14 percent) Scheduled Caste population and 5,513 (0.77 percent) Scheduled Tribe population in 2011 as against their respective numbers 82,179 (13.0 percent) and 4,001 (0.6 percent) in 2001.

Brief analysis of PCA data

Population Growth

The Table-1 gives the percentage decadal variation for 2001-2011 with rural-urban breakup at District and Tahsil level. The percentages of urban population to total population for 2001-2011 are also given.

The percentage decadal variation during 2001–2011 is registered as 9.2 for total District, 7.8 for rural and 13.6 for urban. The growth rate of population in urban area is more as compared to the rural areas in the District. The proportion of urban population to total population in Sangli District has increased to 25.5 percent in Census 2011 as compared to 24.5 in Census 2001.

Among the 10 Tahsils of the District Miraj Tahsil (8,54,581) is the most populous and Atpadi Tahsil (1,38,455) the least. In rural areas, Jat Tahsil has registered the highest growth rate (15.6 percent) while Khanapur (Vita) Tahsil has the lowest growth rate (0.6 percent). In urban areas, Khanapur (Vita) Tahsil has the highest growth rate (15.5 percent), while Shirala Tahsil has recorded negative urban growth rate (-100.0 percent).

Distribution of villages by population size

Table-2 gives the total number of inhabited villages and total sex wise rural population for the District and Tahsil. The population and percentage of villages for each of the identified population size classes are given for the District and Tahsils.

The District rural population in Census 2011 is 21,02,786. It is spread out in 725 inhabited villages. Out of 725 villages only one village is having population less than 200. Major portion of the District population (33 percent) lies in villages whose population size is in the range of 1000-1999. About 15 percent of villages fall in the population size class of 500–999 and 31 percent of villages fall in the population size class of 2000-4999, whereas only 6 percent of villages fall in the population size class of 200-499. There are 86 villages which are having population in the range 5000-9999 and 25 villages are having population above 10,000.

Changes in status of towns in 2011

Table-3 gives information on changes in the status of towns including the denotified and merged towns during 2001-11.

Table-3: New Towns, de-notified, declassified and merged Town in 2011 census

(a) New	
(i) Statutory Town	Nil
(ii) Census Town	Nil
(b) Denotified	
(i) Statutory Towns of 2001 census denotified and also did not satisfy the criteria to be treated as census Towns	Nil
(ii) Statutory Towns of 2001 census denotified but identified as census Towns based on demographic and economic criteria	Nil
(iii) Census Towns of 2001 census are notified as statutory Town in 2011 census	Nil
(c) Declassified

Note :- Sex ratio has been defined here as the number of females per 1000 males

Census 2011 recorded sex ratio of 966 females per 1000 males in the District. This is relatively higher as compared to that of the State average of 929. The sex ratio in Sangli District has remained higher than that of State right from Census 1901 except in 1911 and 1921. From 1901 to 2011 the sex ratio in Sangli District has been fluctuated between 984 and 942, while the State average fluctuated between 978 and 922, exhibiting a declining trend in general.

Table-5 presents data on sex ratio at Tahsil level. At District level the sex ratio is 966 which is 963 for rural and 973 for urban.

Within the District sex ratio varies from 1015 in Shirala Tahsil to 933 in Palus Tahsil. Generally, rural areas have a higher proportion of females than the urban areas, but in this District it is seen that higher proportion of females are in urban area. In rural areas, sex ratio is above the District average in 5 out of 10 Tahsils viz., Shirala (1,015), Kadegaon (993), Khanapur (1,034), Atpadi (995) and Tasgaon (964). In urban areas sex ratio is above the District average in 1 Tahsil viz., Miraj (981) out of 4 Tahsils which have urban population and the remaining 6 Tahsils have no urban population.

Sex ratio figures, exclusively for rural area at C.D.Block level within the District are presented in Table-6 for Census 2011.

Scheduled Caste and Scheduled Tribe Population

Census provides the necessary data about the Scheduled Castes and Scheduled Tribes for evolving suitable plans for their socio-economic upliftment. Both the planners and the administrators heavily depend on this data. The total population, the total Scheduled Caste/Scheduled Tribe population and their percentage to total population are given in table with rural-urban break-up for the District and the Tahsils.

As it can be seen from Table-13, though the District has some share of Scheduled Caste population but the proportion of Scheduled Tribes is not significant.

Out of 725 villages, 70 villages do not have Scheduled Caste population. The percentage of Scheduled Caste population in 128 villages is less than 5 percent and it accounts for 17.66 percent villages covering only 1.81 percent Scheduled Caste population of the District. As many as 521 villages (71.85 percent) covering 96.71 percent of their population fall in the range of 5-30 percent. And only 6 villages come in the range 31-40 percent accounting for 0.83 percent villages with 1.48

percent of Scheduled Caste population whereas no village is found in any range above 40 percent of their population.

Similarly, Table-16 presents data on distribution of villages in different ranges of proportion of Scheduled Tribe population in rural part for eight specified percentage ranges.

In the District, the percentage of literates is 81.48 percent with a break-up of 79.84 percent for rural and 86.24 percent for urban. The urban literacy rate is higher than the rural literacy rate. Similarly the male literacy rate is also higher than the female literacy rate.

The Tahsil wise break up shows that Palus Tahsil has the highest literacy rate of 86.11 percent and Jat Tahsil has the lowest literacy rate of 70.37 percent. Male literacy rate is the highest in Walwa Tahsil (91.34 percent) and the lowest in Jat Tahsil (78.29 percent). Female literacy rate is the highest in Palus Tahsil (80.96 percent) and the lowest in Jat Tahsil (62.1 percent).

In the rural areas of the District, the literacy rate is 79.84 percent with male literates having 87.39 percent and female literates accounting for 72.12 percent. Palus Tahsil has the highest rural literacy rate of 86.11 percent. In this Tahsil 90.96 percent of male and 80.96 percent of females are literates. The lowest rural literacy rate of 70.37 percent is noted in Jat Tahsil.

There is a significant difference in literacy rates between males and females in all the Tahsils of the District. The gap in male-female literacy rate is 13.63 percent points. Females are lagging behind males in literacy rate in all the Tahsils, however the gap varies from Tahsil to Tahsil. A differential of about 10.0 percentage points in Palus Tahsil to 20.56 points in Shirala Tahsil is seen.

Table-21 presents the same data on literacy rate for C.D.Blocks of the District during 2011 Census.

Work Participation Rate

Nature of one's activity and extent of participation in economically productive works are the decisive factor for such a classification. Level of economic development of different regions within the District, availability of opportunities besides willingness to work especially among women, initiative and entrepreneurship evinced by men folk in general activities are the important factors that influence the distribution of population under these three categories i.e., main workers, marginal workers and non-workers

The work participation for total workers is defined as the percentage of total workers to total population. In a similar way it is defined for main and marginal workers. There has been no conceptual change in defining the workers between 2001 and 2011 census. In 2011 Census, there has been mainly three-fold classification of population namely main workers, marginal workers and non-workers, which was adopted for 2001 also. An addition of one sub-category in marginal workers for those worked up to 3 months only is the small change in presentation of data on marginal workers.

Table-30 shows the distribution of main workers, marginal workers and non-workers for total, male and females in 2011 Census.

The work participation rate for workers is defined as the percentage of total workers to total population. In a similar way it is defined for main and marginal workers. Census 2011 recorded 38.09 percent of District population as main workers, 4.97 percent as marginal workers and the remaining 56.94 percent as non-workers.

Among the 38.09 percent main workers, male participation rate is 52.19 percent while that of females it is 23.49 percent. In case of marginal workers, male participation rate is 3.55 percent while for female it is 6.43 percent.

The percentage of main workers is highest in Kadegaon Tahsil (42.07 percent) and the lowest in Miraj Tahsil (34.09 percent). As regards the marginal workers, the highest percentage of marginal workers is in Shirala Tahsil (9.27 percent) and the lowest in Palus Tahsil (3.37 percent). In this District 56.94 percent population is recorded as non-workers, among these 44.26 percent are male and 70.07 percent are female non-workers.

In Table-31, the number and the percentage of total workers, main workers, marginal workers and non-workers by sex are given for the rural areas of the District.

In rural areas of the District, it is seen that 40.22 percent are main workers, 5.62 percent are marginal workers and the remaining 54.16 percent are non-workers. Among the main workers, male participation rate is 53.30 percent while that of females is 26.65 percent.

Block-wise study of these data reveals that the proportion of main workers is highest in Khanapur (Vita) C.D. Block (44.46 percent) and the lowest in Palus (37.36 percent). The proportion of marginal workers is highest in Shirala C.D. Block (9.27 percent) and the lowest in Palus (3.37 percent). Non-worker in rural areas of the District is 54.16 which is 43.13 percent for males and 65.61 percent for females.

In Table-32, the number and percentage of total workers, main workers, marginal workers and non-workers by sex are given for the urban part of the District. About 31.85 percent of the urban population are as main workers, 3.06 percent as marginal workers and the remaining 65.09 percent as non-workers.

Among the Towns, Ashta (M.Cl) has the highest work participation rate of 35.50 for main-workers while Uran Islampur has the lowest rate of 30.15 percent. The sex wise break-up of main workers in urban area shows that work participation rate is 48.92 percent for males and 14.30 percent for females. The work participation rate for marginal workers in urban area for the District is 3.06 percent with 3.47 percent for males and 2.64 percent for females. The percentage of marginal workers is the highest in Budhgaon (CT) (4.37 percent) and lowest in Madhavnagar (CT) (1.74 percent). On the other hand non-workers constitute 65.09 percent comprising 47.61 percent males and 83.06 percent females.

The relative importance of the main spheres of economic activity may be gauged from the pattern of distribution of workers according to the broad four fold classification, namely cultivators, agricultural labourers, household industry workers, and other workers.

Table-33 shows the distribution of male and female workers by four categories of economic activities in the District.

The economy of the Districts is primarily agricultural which is supported by the fact that the cultivators 39.55 percent and agricultural labourers 23.92 together constitute 63.47 percent of the total workers of the District. The agricultural sector has absorbed three-fifth of the total workers in the District.

The proportion of both cultivators and agricultural labourers differs considerably from Tahsil to Tahsil. The proportion of cultivators varies between 54.40 percent for Kadegaon Tahsil and 19.34 percent for Miraj Tahsil. The proportion of agricultural labourers varies between 30.88 percent for Jat Tahsil and 16.05 percent for Miraj Tahsil. It may be seen that 36.53 percent workers are engaged in work other than agriculture. Among them 3.36 percent are household industry workers and remaining 33.17 percent are in other workers.

The proportion of other workers varies between 60.66 percent in Miraj and 17.03 percent in Jat. Among 10 Tahsils, only Miraj (60.66 percent) has the proportion of other workers higher than that of District average (33.17 percent) and their proportion is lower in the remaining 9 Tahsils.

Table-34 indicates the distribution of workers by sex in four categories of economic activity in District.

The economy of the District is primarily agricultural which is supported by the fact that cultivators (48.10 percent) and agricultural labourers (27.83 percent) together constitute 75.93 percent of the total workers of the District. The remaining 24.08 percent of workers are engaged in household industry and other work.

The proportion of cultivators varies between 55.86 percent for Tasgaon C.D. Block and 35.72 percent for Palus. The proportion for agricultural labourers varies between 30.88 percent for Jat and 22.23 percent for Shirala. Over 75.93 percent of the workers in the District are directly engaged in agriculture as cultivators and agricultural labourers, which is but natural in the context of the agricultural economy of the District.

The proportion of other workers in the District is 21.07 percent. The proportion of other workers varies from 31.24 percent in Palus C.D. Block and 13.51 percent in Khanapur (Vita) C.D. Block.

In Table-35, the total urban population, the total workers and their four categories with their proportion to total urban workers are given by sex for the District.

In the District, 'Other Workers' (79.63 percent) constitute the highest percentage of total workers. The next category constituting the highest percentage of workers is Agricultural Labour (8.93 percent) followed by Cultivators (6.72 percent) and Household Industry workers (4.72 percent). Among Agricultural Labourers and Household Industry Workers, there is higher percentage of females than males.

The proportion of household industry workers for District is 4.72 percent. The proportion of household industry workers varies from 5.23 percent in Uran Islampur (M.Cl) and 3.02 percent in Ashta (M.Cl). The District urban average for other workers is 79.63 percent. The proportion of other workers varies between 87.31 percent in Madhavnagar (CT) and 44.19 percent in Ashta (M.Cl).

Brief analysis of the Village Directory and Town Directory data

The highlights of the data based on information collected for Village and Town Directory are presented in Tables 36 to 45. These are mainly related to facilities of education, medical, drinking water, transport and communications, banking, etc. The detail data are compiled for CD Blocks and Towns and a brief analysis has been made for these data for villages and towns.

Table-36 presents data on various facilities available to the villages whereas the similar data for population served by such facilities or beneficiaries are presented in Table-37. A brief note on each such facility along with a Table on appropriate data at which distance such facility is available is made separately.

Education

The education facilities are available to all 725 inhabited villages, serving cent percent rural population of the District (Table-36 & 37).

All villages of the District have primary school facility. But there are 137 villages which do not have middle school. Out of these 137 villages without middle school, 82 villages have a middle school within 5 Kms distance, 20 villages have it at a distance 5-10 Kms and the remaining 35 villages have middle school at a distance beyond 10 Kms.

There are 699 villages which do not have a degree college. Out of these 699 villages without Degree College, 85 have a degree college located within 5 Kms. In respect of 203 villages the degree college is available at a distance 5-10 Kms and the remaining 411 villages at distance more than 10 Kms. (Table-38).

According to the distance range from nearest statutory Towns, 16 villages with educational facilities are located at distance less than 5 Kms., 198 villages are located at distance between 5–15 Kms., 366 villages are located within 16–50 Kms. and 145 villages are located at a distance range of 51 Kms. and above (Table-39).

Medical

Medical institutions of one or the other type are available in 589 villages (81.24 percent) serving 95.71 percent of the rural population of the District. C.D.Block wise study shows that Miraj C.D. Block has reported the highest percentage of 89.06 with 57 villages and 98.38 percent of its population gets the benefit which is higher than the remaining C.D. Blocks. The villages having this facility through primary health centres, sub-centres and dispensaries serve not only the resident population of the concerned village but also those residing in surrounding villages (Table-36 & 37).

The distribution of villages according to the distance from the nearest statutory Town and availability of different facilities shows that, 15 villages (93.75 percent) are located at a distance of less than 5 Kms., 172 villages (86.87 percent) are at 5-15 Kms., 294 villages (80.33 percent) are at 16-50 kms and the remaining 108 villages (74.48 percent) are located at a distance of 51 Kms and above from the nearest statutory Town (Table-39).

According to the population range (Table-40), the medical facility is available in 14.63 percent of small villages in population range less than 500. The same is 9.82 percent for villages in population range of 500-999. It is cent percent in case of population range 1000 and above.

Drinking water

The drinking water source is available to all 725 inhabited villages serving cent percent rural population of the District.

Post office

Posts and telegraphs facility is available to 455 (62.76 percent), serving 85.9 percent of rural population of the District. Within the District the percentage of villages having post and telegraphs facility varies among 10 C.D. Blocks. Miraj C.D. Block with 79.69 percent has the highest proportion whereas Atpadi C.D. Block with 41.67 percent holds the last rank. Among the 10 C.D. Blocks of the District 5 C.D. Blocks are above the District average, while remaining 5 C.D. Blocks fall below the District average (62.76 percent) (Table-36 & 37).

Postal facilities are not available to 270 villages. Out of these as many as 118 villages are situated at a distance of less than 5 Kms., 77 villages have to cover a distance 5-10 Kms and 75 villages have to cover a distance of more than 10 Kms to reach a place with post and telegraphs facility (Table-38).

The distribution of villages according to the distance from the nearest statutory Town and availability of different facilities shows that, among 455 villages having postal facility, 11 villages are located at a distance of less than 5 Kms., 138 villages are within 5-15 Kms., 231 villages are within 16-50 Kms and 75 villages are located at more than 50 Kms from the nearest statutory Towns (Table-39).

This facility is available in all villages having population 5000 and above whereas in villages with population less than 500 none of them have post office (Table-40).

Telephone

The facility of telephone is available in 712 (98.21 percent) villages of the District. These villages serve 99.74 percent of rural population of the District. Among the 10 C.D. Blocks of the District, the percentage of villages having telephone facilities varies considerably. Miraj, Tasgaon, Walwa, Kavathemahankal C.D. Blocks have cent percent coverage (Table-36 & 37). However 13

villages do not have telephone facility and the residents of these villages have access to this facility at a distance within 5 Kms (Table-38).

The distribution of villages according to the distance from the nearest statutory Town and availability of different facilities shows that, 16 villages are located at distance less than 5 Kms., 197 villages are at 5-15 Kms., 358 villages are at 16-50 Kms. and 141 villages are located at distance range of more than 50 Kms from the nearest statutory Towns (Table-39).

This facility is available in all villages having population 500 and above whereas in villages with population less than 500 only 28(68.29 percent) villages are having this facility (Table-40).

Transport and communications

Transport communications facility includes bus or rail service and navigable waterways. If a bus stop or a railway station or navigable waterway is located within the territorial jurisdiction of a village, it is considered to have been served by such a facility even if it is little away from the actual settlement. In the District 705 (97.24 percent) villages have communication facility serving 99.68 percent of the rural population of the District.

Among the 10 C.D. Blocks of the District, all the villages of Tasgaon C.D. Block have transport and communications facility. In 5 C.D. Blocks viz., Walwa, Miraj, Kavathemahankal, Tasgaon and Jat have percentages of villages with transport and communications facility above the District average and the remaining 5 C.D. Blocks have the percentages below the District average (Table-36 & 37).

Out of 725 villages, 20 villages have no bus service. These 20 villages have to cover a distance of less than 5 Kms to reach a place with bus service facility. The availability of this facility depends upon the location of the village with reference to road (Table-38).

The distribution of villages according to the distance from the nearest statutory Town and availability of different facilities shows that, 16 villages are located at distance less than 5 Kms., 197 villages are at 5-15 Kms., 353 villages are at 16-50 Kms and 139 villages are located at distance range of more than 50 Kms from the nearest statutory Towns (Table-39).

This facility is available in all villages having population 500 and above. In case of population less than 500 out of 41 villages only 21 (51.22 percent) villages have this facility.

Banks

The facility of banking is available in 232 villages (32.00 percent) serving 64.38 percent rural population of the District. Miraj C.D. Block has the highest percentage of villages i.e., 51.56 percent having banking facility and Khanapur (Vita) C.D. Block has the lowest percentage of villages i.e., 19.7 percent having banking facility (Table-36 & 37).

Out of 725 inhabited villages, as many as 591 and 499 villages do not have commercial and co-operative banks respectively. The people of 91 and 190 villages have to cover a distance of less than 5 Kms. for availing the facility of commercial and co-operative bank respectively. For 210 and 199 villages the facilities are available at a distance of 5-10 Kms and for the remaining 290 and 110 villages the facilities of commercial and co-operative banks respectively are available at a distance of more than 10 Kms. (Table-38).

As per the distribution of villages according to the distance range from nearest statutory Town, the banking facility is available in 8 villages (50 percent) which are located within 5 kms., 79 villages (39.9 percent) are located at 5-15 Kms., and 115 villages (31.42 percent) are located at 16-50 Kms. In case of remaining 30 villages (20.69 percent) the distance is beyond 50 Kms. (Table-39).

Overall the District level banking facility is available in 232 (32 percent) villages whereas none of the village in population ranges less than 1000 has this facility.

Agricultural credit societies

There are 595 (82.07 percent) villages having agricultural credit societies in the District. These villages serve 96.17 percent of the rural population. Tasgaon C.D. Block (91.18 percent) has the highest percentage of villages having agricultural credit societies and the lowest percentage is recorded in Shirala (69.47 percent) (Table-36 & 37).

Out of 725 inhabited villages, 130 villages are not having agricultural credit societies. Out of these as many as 106 villages are situated at a distance up to 5 Kms. 24 villages located at 5-10 Kms. from a place where the facility is available (Table-38).

Of the 595 villages with agricultural credit society, 15 villages are located at a distance of less than 5 kms., from the nearest statutory Town, 177 villages at a distance range of 5-15 kms., 302 villages at a distance range of 16-50 Kms., and remaining 101 villages at a distance range more than 50 kms. (Table-39)

As per the distribution of villages according to population size range, none of the villages with population less than 500 has agricultural credit society whereas in population range 500-999, only 23 villages (20.54 percent) have this type of society. In case of population size 1000 and above, all villages have this facility.

Approach by pucca road

Road whether 'pucca or Kutcha' are the nerve system of a District. They act as a pull factor for the development and upliftment of the area. Roads with cement concrete, black top, water bound macadam etc. come under pucca road and the remaining are treated as kutcha road.

Out of 725 inhabited villages in the District pucca road facility is available to 699 villages (96.41percent) serving 96.29 percent of the rural population. In Kadegaon and Khanapur (Vita) C.D. Blocks 100.0 percent of the villages are having pucca approach road. Of the remaining C.D. Blocks, Shirala, Tasgaon, Walwa, Miraj and Kavathemahankal have the percentage villages having pucca approach road above the District average and Palus, Atpadi and Jat have below the District average (Table-36 & 37).

About 16 villages having approach by pucca road facility are located at a distance of less than 5 kms., from the nearest Town, 193 villages are at a distance of 5-15 kms of distance, 350 villages are at a distance of 16- 50 kms., and the remaining 140 villages are at a distance range of 51 kms., and above from the nearest statutory Town (Table-39).

Power Supply

All the 725 inhabited villages in all C.D. Blocks are electrified serving cent percent rural population of the District (Table-36 & 37).

Land use pattern

The Table-41 shows the land use pattern in the District, mainly how the available land has been put to different uses under cultivation.

Table-41: Distribution of villages according to land use, 2011

Major social and cultural events, natural and administrative development and significant activities during the decade

During the last decade the major administrative development in the District has been the creation of one new Tahsil viz., Kadegaon. It has been carved out from Palus and Khanapur Tahsils. Apart from this, 4 new villages were created, 1 Census Town declassified (Manadur) and 1 village (Gondilwadi) merged in Palus village after 2001 Census.

Brief description of places of religious historical or archaeological importance in villages & places of tourist interest in the towns of the District

Fairs

The concentration of fairs is heavier in the District. Most of the fairs held in the District are associated with important deities and religious festivals. So far as trade is concerned, fairs are complementary to the weekly markets in the villages. In the fairs the traders and shopkeepers set up temporary stalls. Large quantities of agricultural produce and other articles of daily use are brought for sale. The people buy necessary articles in these fairs. In Sangli District, three fairs are very famous. One is held in Feb-March i.e., on the day of "Mahashivaratri" at Audumber village of Tasgaon Tahsil. In this village on the bank of river 'Krishna', a temple of Goddess "Bhuvaneshwari" is situated and thousands of people gather to participate in the fair. Another famous fair is held during the month of August every year on account of 'Nag Panchami'. It is celebrated in a grand scale in the village 'Battis Shirala' in Shirala Tahsil. People from the District and neighbouring Districts come here to participate in the fair on that day. On Nagpanchami day many people tie the live snakes around their neck and play with them. The third fair is Ganapati fair, which is held everywhere in the District and at the District headquarters place. Besides these there are many fairs, which are held in a small scale.

Places of Historical and Tourist Important

There is a narrow scope for tourism in this District. However it has a number of forts and old temples, which may be of some interest to the visitors. The forest department of Govt. of Maharashtra has started to develop a wild life sanctuary at Sagareshwar in Khanapur Tahsil. Many trees have been planted on a 5.29 sq. kms and 96 various types of animals have been brought in this sanctuary with a view to create tourism centre in the District.

Ganapati Temple at Tasgaon

Of all the objects of interest in the District, Ganesh temple at Tasgaon has one of the most beautiful and magnificent structure. It is a great attraction and draws hundreds of devotees every day. It was built by the late Shri Appasahab Patwardhan in the year 1799. The Shrine is an excellent specimen of stone carvings and especially the glass like polished stonework evokes admiration. Unrivalled in its finish and magnificence, it has become an object of keen interest for people visiting Sangli.

Kvaja Samsuddin Mira Sahab Dargah, Miraj

One of the main attractions of Miraj is the dargah of Samsuddin Mira Saheb. It was built in 1668. The dargah stands on a raised plinth with eight minars, which are illuminated with lamps on the occasion of the urus. Every year the urus is attended by thousands of Muslims as well as Hindus.

Forts

Even though this District is not famous for forts a few isolated forts can be located. They are Bahaddurvadi fort near Islampur, which is said to have been built by Madhavrao, the fourth Peshva (1761-1772) as a frontier protection against the attacks of Kolhapur. Bhupalgad fort in Khanapur Tahsil, which was the eastern out-post of Shivaji's territories, Machchindragad fort built by Shivaji in 1676 about 16 kms. South-east of Karad, Bhuikot fort at Miraj, which was found to be used by Shivaji and later Sambhaji Maharaj are of historical importance.

Major characteristics of the District – Contribution of the District in the form of any historical figure associated with the District

Sangli District is endowed with two economic resources viz., agricultural land and forestry. The District is well known for sugar factories. There are a few sugar factories in the District. The District exports sugar, cloth, food grains etc., to other Districts of Maharashtra. With a view to continue traditional art of craft and with a view to create employment in rural sector, the project of development of craft has been implemented. In this project, the training is imparted for creating musical instruments, statues and leather articles.

The Government of Maharashtra is developing Dandoba hill as a hill station. The forest department Government of Maharashtra has started planting trees on a large scale on Dandoba hill to attract the tourists and to make it a tourism centre. Since the rail facilities are available for this District, the economic and social developments are taking place rapidly. The milk production is another characteristic of the District. The Government of Maharashtra had started a milk dairy in 1961 and the milk is supplied to Mumbai and other Districts. The excess milk produced is converted into milk powder and such powder is again converted into milk using white butter during the slack season.

Marathi is the principal language and is the mother tongue of majority of the population. Apart from Marathi, Kannada, Urdu and Telugu languages are also spoken. Among Hindus, Marathas and Kunbis form the biggest group. A large number of rural dwellings have hardly any touch of architectural beauty or interior decoration. As opposed to these houses in urban areas offer a better sight. They have got better architectural designs and are built with bricks or stones with cement or lime. Broadly speaking the pattern of food is the same in all Tahsils of Sangli. In the eastern parts, jowar bread and in the hilly western parts bread of nagli or rice is staple food of the people. Several special dishes are prepared during the festival season. Ganesh Utsav, Diwali, Holi, Ramnavami Hanuman Jayanti, Gauripuja, Nagapachami, Janmashtami, Muharram, Christmas etc. are the festivals of the people.

Contribution of the District

Sangli District has given many authors, playwrighters, stage artists etc., to the nation. Shri Vishnudas Bhave who wrote Marathi drama "Sita Swayamvar", Govind Ballal Deval, Krishnaji Prabhakar Khadilkar, Vasudeo Khare all belong to Sangli. Natasamrat of Marathi stage Balgandharva belongs to Tasgaon in Sangli District. Famous stage personality Master Deenanath Mangeshkar and Lavani Lokanatya's Patthe Bapurao hail from Sangli. In the resent past the persons who shot to fame like Music queen Heerabai Badodekar, Vinayakbua Patwardhan and Vishnu Digamber Paluskar also belong to this District. Teams from Sangli District have participated a couple of times in the republic day celebrations at the capital city New Delhi.
