

User Module

The screenshot shows a web browser window with the URL `jurisdiction.census.gov.in/users`. A modal titled "ADD USER" is open, displaying the following fields:

- User Type: DCO User
- State / UT Name: Gujarat
- Officer's Name: xyz pqr
- Designation: dpa gr. a
- Mobile Number: 9999999999
- Email: ccccc@mic.in
- Password: ccccc
- Confirm Password: ccccc

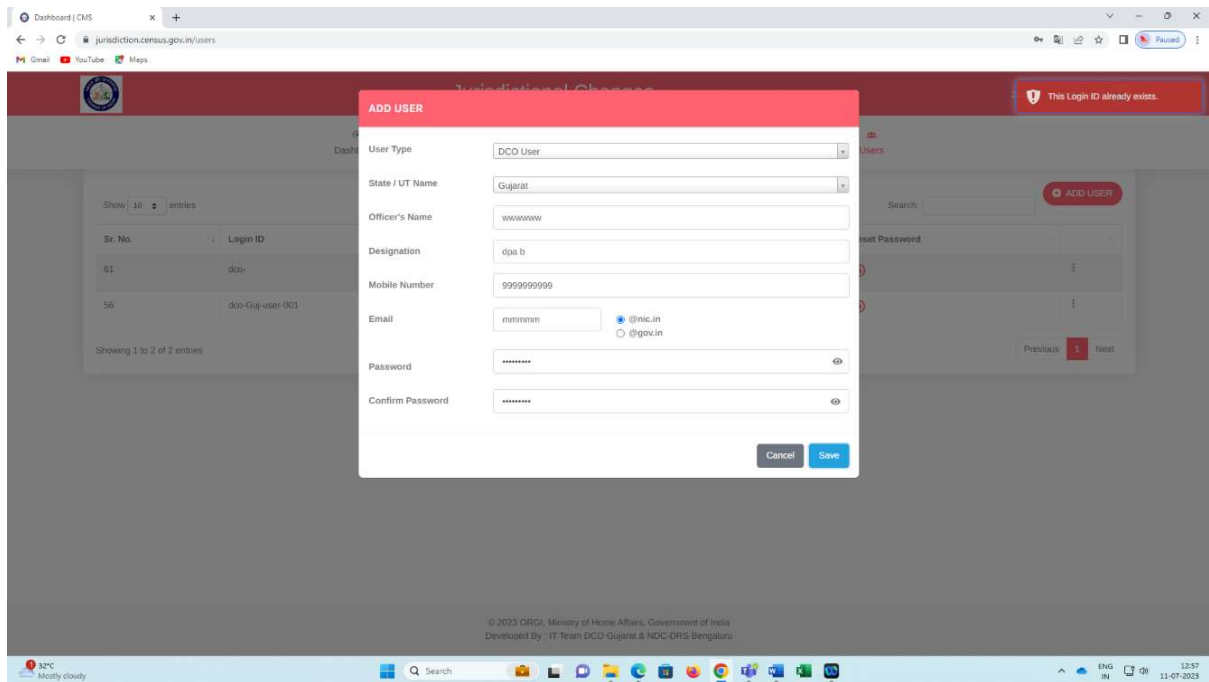

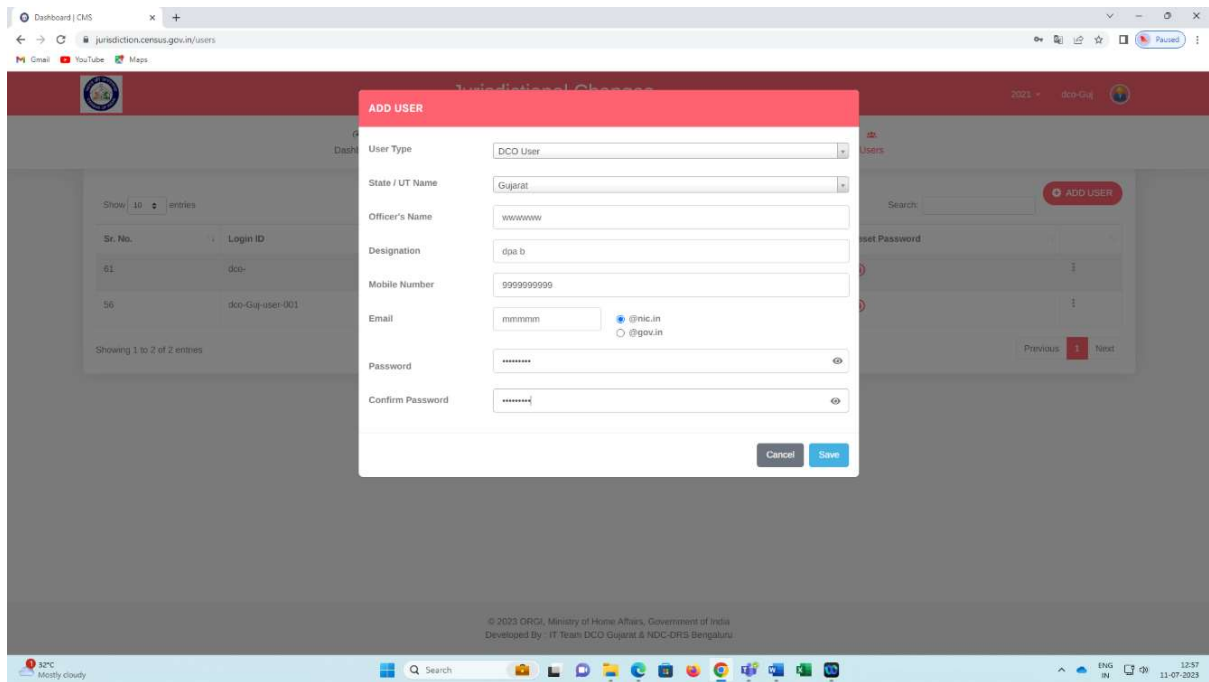

Buttons for "Cancel" and "Save" are at the bottom right of the modal. The background shows a table with one entry and a sidebar with navigation options.

The screenshot shows the "profile" page of the "Jurisdictional Changes" system. The "Change Password" tab is active. The profile information is as follows:

- Officer's Name: XYZ PQR
- Email: ccccc@mic.in
- Mobile Number: 9999999999
- Designation: dpa gr. a
- Login ID: dco-Guj-user-001

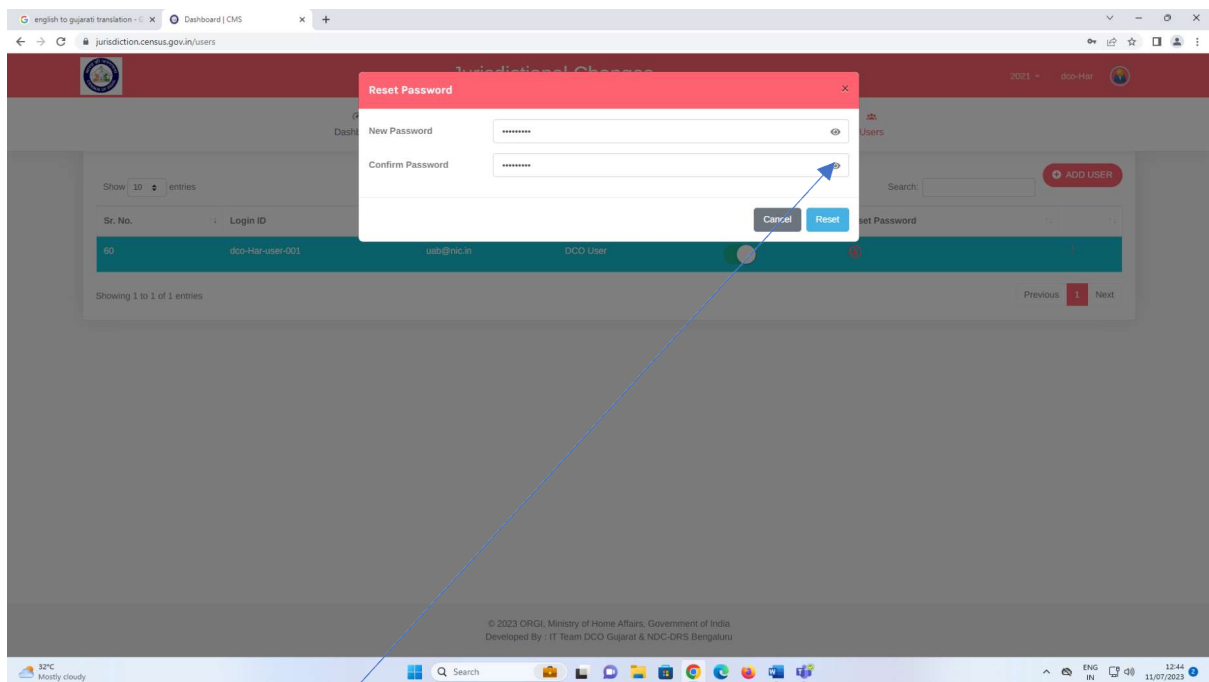

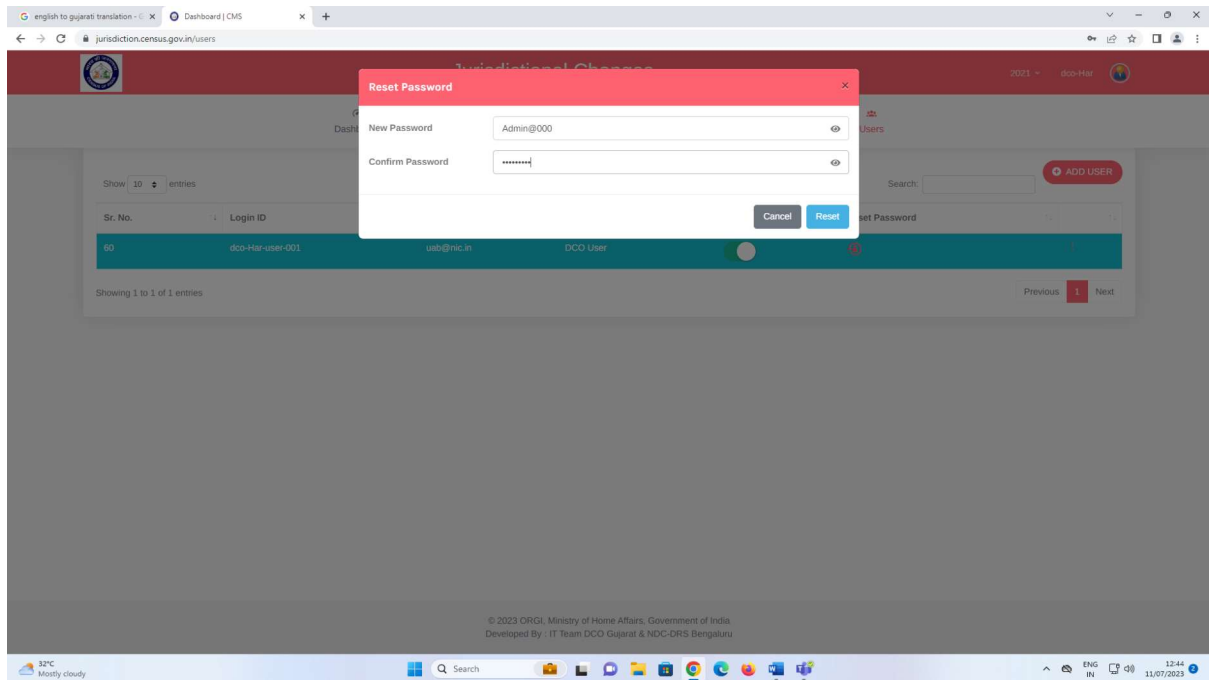

A red error message is displayed below the Login ID field: "This value is too long. It should have 15 characters or fewer." A blue arrow points from the text "Pls remove validation of 15 character or fewer" to this error message. The "Save" button is at the bottom right of the form.

Pls remove validation of 15 character or fewer

When create second Dco User we get error displayed as : 'This Login ID already exists'
